We are proud to announce the inaugural session of **The Indigenous Interpreter: A Credentialed Training Program sponsored by Indigenous Interpreting+**. This 21-module training program is the first of its kind and is offered free of cost during the inaugural training. The training was created specifically to address the unique challenges indigenous interpreters face in the field. It is designed for indigenous interpreters speaking languages from Mexico and Central America. The training will be given in English by bilingual (Spanish-English) instructors.

This curriculum trains indigenous interpreters on interpreting ethics, protocols and modes, including consecutive relay and simultaneous interpreting in healthcare and community settings. Graduates of the program will receive the **Indigenous Interpreting+** National Credential: Level 1 Qualification.
